BOW N°

--

The following equipment is mandatory on board during the races  
 Please be ready to show it to the Equipment Inspector during the pre-regata controls  
 or between the races, offshore, when requested.  
 Fill this form properly and hand it to the registration office before the limit time for registration.  
 For any question do not hesitate to ask the Official Measurer.  
 Thank you.

**C.5.1 PORTABLE EQUIPMENT - MANDATORY ON BOARD**

**OK?**

- |     |                                                                                                                                                          |                                                             |
|-----|----------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------|
| (A) | (1) Throwable device; for example, Coast Guard or local authority approved ring bouy or throwable cushion.                                               | <input style="width: 60px; height: 30px;" type="checkbox"/> |
|     | (2) One bucket of minimum volume 9 liters on a lanyard with a minimum 2m in length and 4mm in diameter. Collapsable buckets are prohibited.              | <input style="width: 60px; height: 30px;" type="checkbox"/> |
|     | (3) One anchor of not less than 3.5 kg in weight including shackles and 1m of chain and with not less than 30m of line of not less than 8mm in diameter. | <input style="width: 60px; height: 30px;" type="checkbox"/> |
|     | (4) First aid kit in waterproof container or bag, not expired.                                                                                           | <input style="width: 60px; height: 30px;" type="checkbox"/> |
|     | (5) A manual bilge pump                                                                                                                                  | <input style="width: 60px; height: 30px;" type="checkbox"/> |
| (B) | (1) A MPS supplied motor bracket                                                                                                                         | <input style="width: 60px; height: 30px;" type="checkbox"/> |
|     | (2) One functioning VHF Radio                                                                                                                            | <input style="width: 60px; height: 30px;" type="checkbox"/> |
|     | (3) One outboard engine with a minimum weight of 13kgs empty of fuel or similar electric motor with batteries of combined minimum weight of 13 kgs       | <input style="width: 60px; height: 30px;" type="checkbox"/> |
|     | (4) A fuel can carrying a minimum of 3 liters measured when leaving the shore.                                                                           | <input style="width: 60px; height: 30px;" type="checkbox"/> |
|     | (5) Or, if using an electric engine, a spare battery weighing not less than 3 kgs.                                                                       | <input style="width: 60px; height: 30px;" type="checkbox"/> |
|     | Is the SAIL DECLARATION FORM inventory list handed at the Sail Measurement Station ?                                                                     | <input style="width: 60px; height: 30px;" type="checkbox"/> |
