

INTERNATIONAL AUDI MELGES 20 CLASS ASSOCIATION

Updated 16 September 2015

Q : Can I put an extra ring close to the luff rope, to be used for the Cunningham system?

No. The official interpretation is that the purchase system cannot be modified and the line shall go through the two Cunningham rings that are in the tack corner of the sail. This is the only system supplied from the builder on the Melges 20. The builder supplied system is the only system permitted; different systems will not be accepted because it is not One Design.

Q : Are we ok to use old buttoned sails from other boats on my boat ?

No. You shall put a limitation mark (some of you refer to them as "button") on each sail you are using on that specific boat. To be more clear, if hull 999 is sharing with hull 888 one jib, this jib shall have sewn on it 2 limitation marks: one coming from the hull 999 and one coming from hull 888.
